

Crack the Code for Cyber Attack Readiness & Recovery

Commvault
Cleanroom Recovery
can provide up to
99% faster recovery
in disruption events

Organizations
moving to Cleanroom
Recovery average
30X increase in
testing frequency

Commvault Cloud
Rewind can provide
up to **94% faster
rebuild** of critical
cloud infrastructure

WHY THIS MATTERS

AI-enabled automation drives testing affordability and frequency, built for today's cyberthreat reality:

"Our recovery matrix has 20+ distinct levels of bringing services up in the right order. With Cleanroom Recovery, we automate this in exactly the right order for success."

IT Global Infrastructure Director,
Global Manufacturing — June 2025
