

Commvault Cloud Administrator Course

OVERVIEW

The Commvault Cloud Administrator Course is designed for IT professionals responsible for deploying, configuring, and managing Commvault Cloud environments. This course provides the foundational and operational knowledge required to administer Commvault Cloud to effectively manage data protection, availability, and operational resilience across hybrid and multi-cloud environments.

Participants will gain hands-on experience with core administrative tasks, including environment setup, policy configuration, workload protection, monitoring, and day-to-day operations. The course emphasizes practical skills needed to support production environments and align Commvault Cloud capabilities with organizational requirements.

COURSE OBJECTIVES

By the end of this course, learners will be able to:

- **Understand Commvault Cloud architecture**
Describe Commvault Cloud components, deployment models, and core services.
- **Confidently navigate the Command Center**
Perform initial setup, user access configuration, and environment onboarding.
- **Protect workloads**
Protect workloads such as virtual machines, databases, file systems, and cloud-native resources.
- **Manage policies and storage**
Create and manage plans, policies, storage targets, and retention rules.
- **Monitor and maintain the environment**
Use dashboards, reports, and alerts to monitor jobs, capacity, and system health.
- **Perform backup and recovery operations**
Execute restore and recovery operations to meet business and operational requirements.
- **Apply best practices for optimal management**
Follow recommended practices for security, compliance, performance, and scalability.

EXAM

Completion of this course helps you prepare for the Commvault Cloud Administrator exam. Passing the exam is a requirement for the Commvault Cloud Practitioner certification.

KEY BENEFITS: CYBER RESILIENCE MANAGED SERVICES

- 1 day for instructor-led; allow extra time for the exam
- 4 hours for self-paced; allow extra time for the exam
