

Commvault Cloud Implementation Services

DESIGNED FOR ACTIVE RESILIENCE – RECOVERY IS THE GOAL

HIGHLIGHTS

- Deploy Commvault Cloud and in-scope data protection agents quickly and efficiently – so your team can stay focused on higher priorities.
- Reduce time to value and lower implementation risk by working with vendor experts and proven methodologies.

OFFERING SUMMARY

Busy IT departments often struggle to maintain traditional backup environments – let alone plan, install, and configure a modern data services solution. Commvault Professional Services help organizations transition from legacy backup and archive solutions to a modern approach based on Commvault Cloud. With proven methodologies and a global team of seasoned technologists, the service is designed to reduce implementation time, effort, and risk.

CUSTOMER OUTCOMES

- Faster readiness for a robust implementation by establishing the project team, confirming timelines, and reviewing design documentation before deployment.
- Accelerated time to value through guided installation and configuration continuity for your Commvault Cloud environment.
- Greater confidence prior to handover through testing of core functionality and backup/restore for the agent type(s) in scope.
- Improved overall availability and stronger operational efficiency by covering basic setup, feature configuration, and environment-specific topics within the project scope.

WHAT IS ACTIVE RESILIENCE?

Active Resilience is the ability to confidently answer two critical questions:

- Are you protected?
- Can you recover?

Commvault Services helps you answer **YES** to both - not just at go live, but consistently over time. This confidence is built by helping you achieve capability, not dependency.

Through structured knowledge transfer, clear and reusable document deliverables, and witness testing that supports recovery outcomes, your teams can gain the skills, evidence, and operational readiness required to recover. Protection enables resilience, but **recovery is the goal** - and Active Resilience enables you to be able to achieve it when it matters most.
