

Active Directory Forest Level Recovery Services for Commvault Cloud

DESIGNED FOR ACTIVE RESILIENCE – RECOVERY IS THE GOAL

HIGHLIGHTS

- **Improved resilience** through Professional Services-led planning and deployment of Commvault Cloud Active Directory Forest Level Recovery capabilities.
- **Right-sized delivery options** with **Essentials** for streamlined onboarding and **Enterprise** for more comprehensive, design-led recovery requirements.
- **Testing** with recovery runbooks executed in a test/isolated environment to validate recoverability while minimizing disruption.

OFFERING SUMMARY

Active Directory is a foundational identity system – and recovery must be fast, repeatable, and reliable.

Active Directory Forest Level Recovery Services provide a structured approach to planning, deploying, and testing **Commvault Cloud's Active Directory Forest Level Recovery** capabilities for Active Directory forests.

These services are available in two primary engagement options:

- **Essentials** – A streamlined, cost-effective engagement intended for smaller organizations (recommended for up to **4,999 users**) and single-forest environments, focused on planning, deployment, and testing with minimal complexity.
- **Enterprise** – A comprehensive engagement that includes deeper discovery, tailored on-premises and networking configuration, and thorough runbook-based recovery testing for complex requirements.

CUSTOMER OUTCOMES

- **Improved resilience and recoverability** for Active Directory forests through guided implementation and validation.
- **Reduced downtime and disruption** by using non-disruptive recovery testing approaches in a test/isolated environment.
- **Reduced complexity** for smaller environments using a streamlined onboarding model (Essentials).
- **Increased reliability and confidence** through comprehensive testing and validation of recovery procedures.
- **Expert support and knowledge transfer** from Commvault professionals for guidance, troubleshooting, and operational readiness.

WHY USE ACTIVE DIRECTORY FOREST LEVEL RECOVERY?

- **Automated recovery:** Automates complex, multi-step recovery to reduce human error and speed recovery.
- **Comprehensive protection:** Supports recovery for the Active Directory forest, including Domain Controllers, as part of a holistic approach.
- **Frequent testing support:** Enables regular cyber recovery testing to maintain preparedness.
- **Integrated solution:** Works within Commvault’s broader cyber resilience platform for unified protection across workloads.

KEY COMPONENTS AND BENEFITS – ESSENTIALS VS. ENTERPRISE

	Essentials Service (Rapid Onboarding)	Enterprise Service (Comprehensive Approach)
Pre-Deployment Planning	Readiness-focused: prerequisites discussion + kickoff/scheduling.	Design-led: requirements review + planning workshop (topology, recovery strategies) + documented recommended configuration (infrastructure, networking, recovery environment).
Deployment Scope Limits	Windows Domain Controllers: up to 5 Virtual Server Agents: up to 1 Backup gateways: up to 1 (deployed & tested) Recovery test: runbook test of up to 2 Domain Controllers in an isolated environment Data centers: up to 1	Windows Domain Controllers: up to 25 Virtual Server Agents: up to 4 Backup gateways: up to 4 (deployed & tested) Recovery test: runbook test of up to 5 Domain Controllers in an isolated environment Data centers: up to 2

WHAT IS ACTIVE RESILIENCE?

Active Resilience is the ability to confidently answer two critical questions:

- Are you protected?
- Can you recover?

Commvault Services helps you answer **YES** to both - not just at go live, but consistently over time. This confidence is built by helping you achieve capability, not dependency.

Through structured knowledge transfer, clear and reusable document deliverables, and witness testing that supports recovery outcomes, your teams can gain the skills, evidence, and operational readiness required to recover. Protection enables resilience, but **recovery is the goal** - and Active Resilience enables you to be able to achieve it when it matters most.
