

Commvault® Cloud: Backup and Recovery for Microsoft 365

# Your docs, inboxes, and conversations need protection too

Commvault Cloud, delivers powerful, enterprise-grade Microsoft 365 data protection. With broad-ranging coverage across the entire Microsoft 365 environment, Commvault keeps valuable data safe from deletion, corruption, and ransomware attack—all with the simplicity of SaaS.

## DATA RESILIENCY AND CYBER RECOVERY

- Advanced data protection and resiliency
- Isolated and immutable backups, outside production environments
- Dedicated controls to meet SLA and compliance requirements

### Complete coverage

Comprehensive protection across Exchange, Teams, OneDrive, and SharePoint data. Effortlessly locate active or deleted data, rapidly recover from attack, and meet your SLA and compliance requirements with ease.

- Long-term retention, configurable up to 10 years
- Granular search and eDiscovery
- Flexible point-in-time and out-of-place recovery options
- Deduplication and compression for optimized performance
- Self-service, end user restore options
- High-speed backup and bulk restores at scale

### Enterprise-grade protection

Go above and beyond for your critical Microsoft 365 data. With stringent security standards, privacy protocols, and zero-trust access controls built-in, Commvault Cloud provides multi-layer resilience to help minimize the effects of cyber attacks and combat today's data loss threats.

- Isolated, air-gapped backups from source data
- Layered security that meets industry standards and supports regulation compliance
- At-rest and in-flight data encryption
- Role-based, SSO, SAML authentication controls

### Award-winning SaaS

With Commvault Cloud Backup & Recovery for Microsoft 365, you get cost-effective data protection, without the complexity. Harness the power of hassle-free deployments, maintenance, and management. SaaS that's proven to reduce costs and eliminate headaches—so you only pay for what you need.

- Azure storage and extended retention included
- No hardware or large upfront capital investments
- Zero egress fees or hidden storage charges
- Automatic updates and maintenance built-in
