

MANUFACTURING & ENERGY DATA RETENTION REQUIREMENTS

Manufacturing and Energy industries encompass a wide range of business types, with many data requirements that are specific to products or locations.

Here's a sampling of the U.S. federal regulations for data retention that apply to a wide range of organizations in these industries.

FERC

(FEDERAL ENERGY REGULATORY COMMISSION)

WHAT KIND OF DATA?

Electric utilities' reliability and compliance records

WHAT'S THE REQUIREMENT?

6 YEARS¹

CAA

(CLEAN AIR ACT)

WHAT KIND OF DATA?

Emissions records

WHAT'S THE REQUIREMENT?

5 YEARS²

WHAT DOES IT APPLY TO?

- Major sources of air pollution
- Sources subject to NESHAP
- Manufacturers of vehicles and engines

OSHA

(OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION)

WHAT KIND OF DATA?

Injury and illness records

WHAT'S THE REQUIREMENT?

5 YEARS³

FINES RANGE FROM

\$15,625 to \$156,259 per violation

CWA

(CLEAN WATER ACT)

WHAT KIND OF DATA?

Water quality and pollution control records

WHAT'S THE REQUIREMENT?

6 YEARS⁴

WHAT DOES IT APPLY TO?

- Facilities that discharge pollutants into US waters

- Industrial facilities subject to Effluent Limitation Guidelines

EPA

(ENVIRONMENTAL PROTECTION AGENCY)

WHAT KIND OF DATA?

Hazardous waste management records

WHAT'S THE REQUIREMENT?

3 YEARS⁵

WHAT DOES IT APPLY TO?

- Large quantity generators of hazardous waste
- Treatment, storage and disposal facilities
- Recycling facilities

REDUCE COMPLEXITY AND COST FOR MEETING COMPLIANCE REGULATIONS WITH CLUMIO BY COMMVAULT.

With so many regulations at both federal and state levels, it can be difficult to maintain data compliance. Clumio has helped customers reduce their data management operational costs by 80% by automating data protection and compliance.

“Clumio has allowed us to standardize our data protection capability so that for a team to start backing up, it's as simple as putting a tag on a bucket. That's the kind of simplicity we were looking for.”

Mark Huber, Sr. Director of Engineering Enablement, Cox Automotive
